Any forward looking information has been prepared on a number of assumptions which may prove to be incorrect and, accordingly, actual results may vary. Past performance is no guarantee of future results; nothing herein shall constitute any representation, warranty or prediction as to future performance of any issuer / counterparty. Considerable care has been taken to ensure the information in this document is accurate, however no representation or warranty is given as to the accuracy or completeness of any information and no reliance may be placed for any purpose whatsoever on the information or opinions contained in this document or on its completeness and no liability whatsoever is accepted for any loss howsoever arising from any use of this document or its contents otherwise in connection therewith.

In addition to understanding the featured and benefits of structured products, Professional Advisers and investors also need to understand their risks and limitations: structured products present counterparty risk - the potential returns of a structured product and the repayment of money invested in a structured product usually depend on the financial stability of the issuer and counterparty; the level of return a structured product generates may be capped and / or less than the level of return generated by direct investment in the stock market or via active or passive funds; the terms of structured products can predefine what can be expected at maturity and at certain other dates, such as potential 'kick-out' and early maturity dates - but these terms do not apply during the investment term; the value of structured products during the investment term may be affected by various factors - while accessing an investment is usually possible, during normal market conditions, this is not guaranteed; past performance is not a reliable indicator of or guide to future performance and should not be relied upon, particularly in isolation; the value of investments and the income from them can go down as well as up; capital is at risk and investors could lose some or all of their capital. Professional Advisers and investors read the plan documents for any structured product plan of interest, in particular: the plan brochure and plan application pack, including the features and benefits, risks and limitations, and terms and conditions of the plan; and the issuer's key information document (KID').

Hilbert Investment Solutions. Hilbert Investment Solutions Limited is registered in England and Wales (No 08956837), with its registered office at 2 Leman Street, London E1W 9US and its business office at St Clements House, 27-28 Clements Lane, London EC4N 7AE. Hilbert Investment Solutions is authorised and regulated by the Financial Conduct Authority in the UK (FCA No 698380).
