Morgan Stanley

Key Information Document

Purpose

This document provides you with key information about this product. It is not marketing material. The information is required by the Packaged Retail and Insurance-Based Investment Products Regulation ("PRIIPs") to help you understand the key features, risks, costs and potential gains and losses of this product and to help you compare it with other products covered by PRIIPs.

Product

Product name Autocallable Barrier Phoenix Note Linked to an Index

Product identifier ISIN: XS3211595593

PRIIP manufacturer Morgan Stanley & Co. International plc (https://sp.morganstanley.com/EU/)

Telephone number +44-20-7677-6140

Date and time of production 30 October 2025 12:33 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

English law governed equity-linked notes / Return depends on the performance of the underlying / No capital protection against market risk

Objectives

section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the underlying. The product has a fixed term and will terminate on the maturity date, unless terminated early. If, at (Terms that appear in **bold** in this maturity, the **final reference level** of the **underlying** has fallen below the **barrier level**, the product may return less than the **product notional amount** or even zero.

Early termination following an autocall: The product will terminate prior to the maturity date if, on any autocall observation date, the reference level is at or above the autocall barrier level. On any such early termination, you will on the immediately following autocall payment date receive, in addition to any final interest payment, a cash payment equal to the autocall payment of GBP 1,000.00. No interest payments will be made on any date after such autocall payment date. The relevant dates are

Autocall observation dates	Autocall payment dates
20 December 2027	29 December 2027
19 December 2028	28 December 2028
19 December 2029	28 December 2029
19 December 2030	30 December 2030
19 December 2031	30 December 2031
20 December 2032	29 December 2032
19 December 2033	Maturity date

Interest: If the product has not terminated early, on each interest payment date you will receive an interest payment of GBP 16.00 if the reference level is at or above the Interest barrier level on the immediately preceding interest observation date. If this condition is not met, you will receive no interest payment on such interest payment date. The relevant dates are shown in the table(s) below.

Interest observation dates	Interest payment dates
19 March 2026	26 March 2026
19 June 2026	26 June 2026
21 September 2026	28 September 2026
21 December 2026	30 December 2026
19 March 2027	30 March 2027

21 March 2033	28 March 2033
20 June 2033	27 June 2033
19 September 2033	26 September 2033
19 December 2033	Maturity date

Termination on the maturity date: If the product has not terminated early, on the maturity date you will receive:

- 1. if the final reference level is at or above the barrier level, a cash payment equal to GBP 1,000.00; or
- 2. if the **final reference level** is below the **barrier level**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** divided by (B) the **strike level**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

You do not have any entitlement to a dividend from the underlying and you have no right to any further entitlement resulting from the underlying (e.g., voting rights).

Underlying	FTSE 100 INDEX (Price return index) (ISIN: GB0001383545; Bloomberg: UKX Index)	Barrier level	65.00% of the initial reference level

Issue price	100.00% of the product notional amount	Final reference level	The reference level on the final valuation date
Product currency	Pound Sterling (GBP)	Initial valuation date	19 December 2025
Underlying currency	GBP	Final valuation date	19 December 2033
Subscription period	6 November 2025 (inclusive) to 19 December 2025 (inclusive)	Maturity date / term	28 December 2033
Issue date	30 December 2025	Autocall barrier level	105.00% of the initial reference level
Initial reference level	The reference level on the initial valuation date	Interest barrier level	85.00% of the initial reference level
Strike level	100.00% of the initial reference level		

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have basic knowledge and/or experience of investing in similar products which provide a similar market exposure and have the ability to understand
 the product and its possible risks and rewards, either independently or through professional advice;
- 2. they seek income, expect the movement in the underlying to perform in a way that generates a positive return. They have a long investment horizon and understand that the product may terminate early;
- 3. they are able to bear a total loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
- 4. they accept the risk that the issuer could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
- they are willing to accept a level of risk of 4 out of 7 to achieve potential returns, which reflects a medium risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

2. What are the risks and what could I get in return?

Risk indicator

1

2

3

4

5

6

7

Lower risk

Higher risk

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Investment performance information

Main factors likely to affect future returns on the product

Your return on the product at the end of the recommended holding period will principally be affected by (1) the price at which you purchase the product, (2) the performance of the **underlying** over the recommended holding period and (3) the ability of the issuer to make payments that become due on the product. The value of the product before the **maturity date** or early termination of the product will also be affected by general economic and market conditions, the volatility of the **underlying** (which is a measure of the extent of movement in the level of the **underlying**), interest rates, the remaining time to maturity and the ability of the issuer to make payments.

What could affect my return positively?

An increase in the level of the underlying

What could affect my return negatively?

- A decrease in the level of the underlying
- The occurrence of a barrier event
- Your overall return may be negatively affected if the product early terminates.
- \bullet The issuer's inability to make payments on the product when they fall due

The factors listed above provide general guidance on how changes in the level of the **underlying** may affect your return if you purchase the product at inception and hold it to the end of the recommended holding period. If you purchase or sell the product after inception, your return on the product will also be affected by the purchase or sale price and the level of the **underlying** at the time of sale or, in the case of a purchase, at and following the time of purchase. The precise impact will depend on the timing and effects of these changes, and the above list should not be viewed as guaranteeing a particular outcome. See "1. What is this product?" for a discussion of how the payments you may receive at the end of the recommended holding period will be calculated.

In severely adverse market conditions, if you hold the product to the end of the recommended holding period, you may lose your entire investment.

If you sell the product in severely adverse market conditions prior to the recommended holding period, your return may be lower than what you would have received if you held the product to the end of the recommended holding period and may be as low as zero. See "5. How long should I hold it and can I take money out early" below for additional information.

3. What happens if Morgan Stanley & Co. International plc is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

Investment: GBP 10,000				
Scenarios	If you cash in after 1 year	If you cash in after 4 years	If you cash in at the end of the recommended holding period	
Total costs	GBP 476.11	GBP 476.11	GBP 426.11	
Impact on return (RIY) per year	5.13%	1.25%	0.55%	

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.			
One-off costs	Entry costs	0.55%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Other ongoing costs	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 4.26107% and exit costs: 0.00%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 8 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 28 December 2033 (maturity), although the product may terminate early.

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Luxembourg Stock Exchange (Euro MTF)	Price quotation	Percentage	
Smallest tradable unit	GBP 1.000.00			

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Morgan Stanley & Co. International plc, Structured Products Floor 01, 20 Bank Street, Canary Wharf, London, E14 4AD, by email to: rspcomplaints@morganstanley.com. Please see also https://sp.morganstanley.com/EU/. Complaints should include the name of the product, ISIN and reason for the complaint.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The product is not in any way sponsored, sold or promoted by any relevant stock market, relevant index, related exchange or index sponsor. Further information in respect of the index is available from the index administrator.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on https://sp.morganstanley.com/EU/, all in accordance with relevant legal requirements. These documents are also available free of charge from Morgan Stanley & Co. International plc, Structured Products Floor 01, 20 Bank Street, Canary Wharf, London, E14 4AD.
