Best Advice Wealth Management is a trading style of Best Price Financial Services Limited, and as a regulated business, must read the AAQ and ask further questions to assess appropriateness and, if any answers are unclear when completing "Appropriateness". It is imperative that Investors understand that the "Appropriateness" of an investment being accepted by a distributor must be aligned to the product's target audience. We must reject applications if an investment is made that is not clearly "appropriate" on a non-advised basis. We need to do this to protect investors.

If we have rejected an application on this basis, then we are still able to discuss the suitability of the product with you on a fully advised basis, taking into account your personal circumstances. The fee for this advice would be 1.5% on completion of the advice process, rather than the application being made (minimum advice fee is £300).

By signing below, you are acknowledging that you have read and understood the above and that you are instructing Best Price Financial Services Limited to arrange the above investment on your behalf, without taking independent regulatory advice, which follows the "Know your customer" process – leading to a suitability recommendation.

Without taking regulatory advice (which we offer and firmly recommend) you are engaging with a process of product selection for which you take full responsibility in proceeding with the investment selected.
